CORRESPONDENTS WANTED.—THE OUTLOOK would like to have a correspondent at Sherburne, Ky. Send the real news and send it in regularly. A copy of the paper and stationery will be supplied to the right parties. Especially do we wish correspondents that will send something interesting and avoid mere visits between neighbors.

MADE A GOOD IMPRESSION.—Judge C. W. Goodpastor, of Owingsville, was here most of last week sitting as special Judge at a special term of Circuit Court and made a fine impression on our people. The case on trial was one in which the feelings of many people were worked up to a high pitch of excitement and one of a species of cases that elicit much bitterness. Judge Goodpastor handled it with fairness and impartiality and elicited golden opinions by his tact and courtesy as well as by his promptness and fairness.—Winchester Democrat.

Don's Latest.—S. D. Thompson has a mare with a young colt. In the same lot was a 90-lb. shot. The colt while inspecting the shot and sniffing the brand of perfume affected by it attracted the mammy mare's attention to the porker. The mare ran and seized the shot with her teeth and oiled it fifteen feet in the air, the shot emitting three distinct squeals before it struck the ground. The pig on reaching the ground developed a rare sprinting ability until he put a safe distance between himself and the irate equine.

Mrs. R. S. Estill declined the offer of the company to operate the exchange longer and will move with her family to Mrs. J. J. Nesbitt's house on west Main street. No operator to succeed her has yet been secured.

FAVORED SECTION.—Preston and Olympia neighborhoods were favored with a 3 inch rain Saturday afternoon, while the dust was not laid on the pile half way between here and there.

The ground in the southern part of the county was too wet to plow. Slate Creek came down flush. Always when a drought happens the balance of the county's straw along the railroad has plenty of rain.

SCHOOL TEACHERS' EXAMINATIONS.—The examination of the graduates of the public schools of Bath county will be held at the Court-house next Friday and Saturday, May 11 and 12.

TEACHERS IN GRADED SCHOOLS.—The trustees of the Owingsville graded school district have re-employed Prof. C. F. Martin, of Carlisle, as principal and Miss Hattie Sechrest, of New York City, as assistant for the next term; also employed Miss Lizzie Rice, of Carlisle, and Miss Lizzie Colville, of West Liberty, Mo., as assistants. Prof. Brumley will probably go to Pikeville.

JACK FROST'S DESTRUCTIVE VISIT.—There is mourning throughout the land. J. Frost, Esq., exercised his bitter with most disastrous results to the biteable garden vegetation Monday night or Tuesday morning—it matters not about the mere chronology of the thing. When on Tuesday Old Sol cast his warming rays on the beans that had not been protected they immediately wilted and began to turn dark. Everything susceptible shows the effect of the freezing temperature, for there was ice, as well as frost, resembling a slight skiff of snow. In fact, a young lady who drove to town from the country early said the coating of ice crystals was so heavy along the road on Prickly Ash that her horse scared at it. That may have been merely a facetious exaggeration—and it may have been the absolute truth. A sensible horse owner is not to be blamed for showing trepidation at a heavy white frost on the eighth day of what used to be sunny, flowery May. If human creatures had shown a similar apprehension by covering up their growing beans Monday afternoon they would not now be so beardless and tearful.

The frost was destructive enough on the high town ridge. It may be expected that the young clover and even wheat in the low valleys has suffered severely. What effect it will have on the fruit is problematical.

Do you know where The Pocket is? Well, ask for Gillon's, if you don't, and don't fail to go there when in town, as he is almost giving goods away. He will save you 1/4 the price you pay others, as he has a large stock of

RECEIVED \$3,000.—Hon. W. A. Young and another attorney for the C. & O. Railroad Co. were here Tuesday and Wednesday last week and made a compromise with Miss Lucy Vanlandingham of Odessa, who was injured severely in getting off the express at Preston on her return from the State Fair at Lexington last September, paying her \$3,000. Miss Annie Bailey, of Odessa, whose foot was cut off at the same time, was paid \$5,000 one time ago.

TO PREVENT HOUSEBURN.—J. P. Collier, of near Sherburne, says that until last year he always had more or less houseburned tobacco in his barn, and last fall he tried an experiment to counteract it. He set up a stove in the driveway of his barn, and by means of a double elbow attached two pipes running out at each end door.

Fires were carefully tended in the stove. The result was most happy in that his tobacco cured up free of houseburn. The farmers generally might profit by his experience.

LIKE A LAMP.—A certain gentleman was surprised a few evenings ago when his wife named an expensive lamp after him. He was more surprised at her reason for doing so. "Well," said she, "you know, dear, it has a good deal of brass about it, it is handsome to look at; requires a good deal of attention, it is remarkably brilliant, it is sometimes unsteady; liable to explode when only half full; flares up occasionally; it is always out at bedtime, and is bound to smoke."
